

# INDEX

## INDEX TO VOLUME XII.

### GENERAL INDEX

#### A

- Abdomen, drainage of the lower (abs.) 589.
- Abdominal cases, medical care of post-operative, R. D. Rudolf 458.
- " surgery, indications and dangers in the use of spinal anaesthesia in obstetrics, gynaecology and (abs.) 749.
- " tuberculosis, clinical aspects of (abs.) 590.
- " wall, haematoma and abscess of the anterior (abs.) 590.
- Abortion, septic, O. A. Cannon 163.
- Abscess, retro-caecal, rupturing into bladder following course of right ureter (case report), R. E. Webster and G. Hooper 737.
- Acidophilus bacillus and its therapeutic application (abs.) 436.
- Acrodynia met with in young children, polyneuritic affection resembling, L. M. Lindsay 618.
- Actinomycosis of the urinary organs (abs.) 435.
- Address of the president of the Ontario Medical Association, F. J. Farley 445.
- Adhesions, preventable causes of (abs.) 674.
- Adrenalin, intracardiac injection of, for syncope after administration of chloroform in infancy (abs.) 674.
- Agglutination test, a simple cross, for blood donors using haemolysed blood, N. M. Guiou 488.
- Alcohol, effects of, upon digestion in the stomach (abs.) 677.
- Anaemia, pernicious (abs.) 591.
- " " blood changes in a gastrectomized patient simulating those in (abs.) 52.
- " " with special reference to the spleen and the large intestine (abs.) 184.
- " ulcerative colitis due to bacillus dysenteriae, simulating pernicious (case report), H. M. Young 332.
- Anaesthesia, effects of ether, on afferent paths in the decerebrate animal (abs.) 911.
- " eleven thousand cases of spinal (abs.) 49.
- " ether, preliminary stage in the progress of (abs.) 187.
- " indications and dangers in the use of spinal, in obstetrics, gynaecology and abdominal surgery (abs.) 749.
- " local, as applied to operations on the rectum and anus, A. J. Grant 795.
- " for nose, throat and abdominal surgery by nitrous oxide oxygen C.E. combinations, H. E. G. Boyle 171.
- " reaction of the blood in reference to the regulation of respiration and the influence of, A. W. Downs 625.
- " respiratory complications after 7,000 cases under general, D. C. Aikenhead 884.
- " sacral, in urology (abs.) 122.
- " some work with block and local, H. O. Howitt 549.
- " suprarenal gland in (abs.) 829.
- Anaesthetic ethers, some new, W. Webster 15.
- " relation of, to pulmonary abscess following nose and throat surgery (abs.) 911.
- Anaesthetics, anurias occurring in normal animals during the use of the general (abs.) 49.
- " effects of general, on the liver, C. LaRocque 566.
- Aneurism, aortic dilatation and, W. Wilson 283.
- Angina pectoris and arteriosclerosis with temporary muscular paralysis (case report), D. G. Campbell 107.
- " " observations on (abs.) 826.
- Anginal syndrome, nature and origin of (edit.) 112.
- Antiseptics in hand washing, value of various kinds of soaps as (edit.) 180.
- Antra, infected (case report), E. Spence 493.
- Anurias occurring in normal animals during the use of the general anaesthetics (abs.) 49.
- Anus, local anaesthesia as applied to operations on the rectum and, A. J. Grant 795.
- " vestibularis, reconstruction with successful result (case report), R. O'Callaghan 246.
- Aorta, embolism of the abdominal, C. F. Wylde 647.
- Aortic dilatation and aneurism, W. Wilson 283.
- Aortitis and endocarditis, syphilitic (case report), J. C. Lindsay 335.
- Appendix, acute, W. Jamieson 232.
- " " obstruction to cystic dilatation of (case report), E. J. Ferg and W. A. Chestnut 108.
- Apothesine, how it compares with other agents used in spinal analgesia with special reference to a threatened accident in a case of prostatectomy (abs.) 829.
- Arsphenamine, spinal drainage following intravenous (abs.) 753.
- Arterial blood pressure, experimental investigations on the physio-pathology of (abs.) 674.
- Arteriosclerosis (abs.) 188.
- " and angina pectoris with temporary muscular paralysis (case report), D. G. Campbell 107.
- Artery, intermittent hydronephrosis due to kinking of the right ureter by an accessory renal (case report), W. W. Beatty 333.
- Arthritis, alimentary infections in chronic (abs.) 357.
- " chronic, with lamblia; duodenal biliary drainage (abs.) 48.
- " " some phases in its etiology and treatment, A. A. Fletcher 633.
- " multiple, treated by medical drainage of the gall bladder owing to the discovery of an infected gall bladder in the course of routine examination for an infected focus. Cure almost complete within a few weeks (case report), C. F. Martin 418.
- " rheumatoid (case report), A. MacKenzie Forbes 331.
- Asthma in children, A. Brown 780.
- " vaccine treatment of (abs.) 124.

- Auricular fibrillation, observations on the action of quinidine with special reference to (abs.) 265.  
 " " and quinidine (edit.) 742.  
 " " quinidine in (abs.) 189, 678.  
 " " " treatment of (retrosp.), C. F. Moffatt 110.

## B

- Bacillus dysenteriae, ulcerative colitis due to, simulating pernicious anaemia (case report), H. M. Young 332.  
 Banti's disease, splenectomy in (abs.) 748.  
 Barany tests, diagnosis of brain tumours by the (abs.) 824.  
 Bile duct, reconstruction of the common (abs.) 184.  
 Biologic reactions in syphilis of central nervous system, significance of (abs.) 125.  
 Bladder, contracted (abs.) 186.  
 " retrocaecal abscess rupturing into, following course of right ureter (case report), R. E. Webster and G. Hooper 737.  
 Blood, action of high altitudes on (edit.) 429.  
 " changes in a gastrectomized patient simulating those in pernicious anaemia (abs.) 52.  
 " cholesterol, its importance and the value of its determination in cancer research, G. Loudon 147.  
 " occult, in stools (abs.) 46.  
 " pressure, experimental investigations on the physiopathology of arterial (abs.) 674.  
 " reaction of the, in reference to the regulation of respiration and the influence of anaesthesia thereon, A. W. Downs 625.  
 " serum of rachitic infants, effects of ultra violet rays on the calcium and inorganic phosphate contents of the, F. F. Tisdall 536.  
 " study of transfused (abs.) 48.  
 " sugar tolerance test as an aid to diagnosis in gastrointestinal cancer (abs.) 188.  
 " transfusion, sodium citrate technique of, C. K. P. Henry 17.  
 " " as a therapeutic agent in paediatrics (abs.) 47.  
 Bone grafts (abs.) 588.  
 " suppuration the basic cause of renal calculus in twenty cases following war wounds, H. E. Paul 638.  
 Bones and joints roentgen ray diagnosis of tuberculosis of the, A. E. Walkey 728.  
 Book Reviews: See page xi  
 Brain, chronic, injuries with remarks concerning the pathology and treatment, W. Sharpe 761.  
 " pseudotumours of (abs.) 51.  
 " tumours, diagnosis of, by the Barany tests (abs.) 824.  
 Breast, bilateral carcinoma of (case report), R. E. Webster and G. Hooper 659.  
 " cancer of the (edit.) 664.  
 " massive hypertrophy of (abs.) 121.  
 Bromide eruption in a nursing infant, F. H. Boone 570.  
 Broncho-pneumonia following aspiration of zinc stearate powder (case report), A. Goldbloom 491.  
 Bronchoscopic work, reflex cough in (edit.) 904.

## C

- Caesarian section, A. MacKinnon 405.  
 Calcium in heart therapy (abs.) 437.  
 " and inorganic phosphate content of the blood serum of rachitic infants, effects of ultra violet rays on, F. F. Tisdall 536.  
 Calculi, differential diagnosis of salivary (abs.) 670.

- Calculus in a boy four years of age, nephrolithiasis, pyonephrosis and impacted urethral (case report), H. C. Cassidy 246.

- " renal, bone suppuration the basic cause of, in twenty cases following war wounds, H. E. Paul 638.

Canadian Medical Association: See page xii

- Cancer, blood sugar test as an aid to diagnosis in gastrointestinal (abs.) 188.

- " of the breast (edit.) 664.

- " etiology of (retrosp.), Wm. Boyd 421.

- " new attempts to produce immunity in man to malignant disease, S. Russ 841.

- " problem, H. A. Bruce 225.

- " problems of clinical interest to the surgeon and radium therapist relating to, C. E. Fields and R. Wadhams 153.

- " of the prostate and seminal vesicles treated with radium (abs.) 355.

- " spinal, early symptoms of (abs.) 672.

- " of the stomach, analysis of one hundred and eighty-two cases with special reference to incidence of pre-existing ulcer (abs.) 187.

- " of the uterine cervix, clinical study of; summary of results obtained by various methods of treatment, J. W. Ross 772.

- Capillary pulse, nature of the so-called (abs.) 592.

- Carcinoma, bilateral, of breast (case report), R. E. Webster and G. Hooper 659.

- " of the prostate, J. C. McClelland 415.

- " rectum, clinical lecture, A. T. Bazin 281.

- " " the stomach, prevalence of free hydrochloric acid in cases of (abs.) 264.

- Caries of the hip-joint (abs.) 185.

- Cataract operations, technique of, C. Campbell 10.

- Catarrhal deafness, pathology and treatment of chronic, G. Goldsmith 293.

- Cathartics, some abuses of (abs.) 751.

- Chest, normal, x-ray and clinical findings in, of children six to ten years, National Tuberculosis Association Medical Research 515.

- Child, school, before and after tonsil and adenoid removal (abs.) 825.

- Childhood, diagnosis of tuberculosis in (edit.) 497.

- " typhoid fever in infancy and, H. S. Whiting 531.

- Children, asthma in, A. Brown 780.

- " diagnosis and treatment in pathologic conditions of urinary tract in (abs.) 187.

- " inequality of the lower extremities following fracture of the shaft of the femur in (abs.) 49.

- " observations on some throat conditions in, E. Boyd 891.

- " polyneuritic affection resembling acrodynia met with in young, L. M. Lindsay 618.

- " of the school and pre-school age, necessity for the careful medical oversight of (edit.), R. E. Wodehouse 428.

- " school, a tuberculosis survey of 1,346, in Saskatchewan, R. G. Ferguson 381.

- " significance of pyuria in 910.

- Chiropraxis, danger of ex-service men with no medical knowledge attempting osteopathy or so-called (edit.) 253.

- Chloroform, intracardiac injection of adrenalin for syncope after administration of, in infancy (abs.) 674.

- Cholecystectomy and choledochotomy, closure of abdomen without drainage after (abs.) 261.

- " comparison of cholecystostomy and (abs.) 828.

- Cholelithiasis, early signs and symptoms of (abs.) 827.

- Chorea, late treatment of (abs.) 436.

# INDEX

V

- Circulation and respiration in a case of paroxysmal tachycardia, observations on 265.
- Circulatory stimulants in the care of the sick, R. D. Rudolf 697.
- Colitis, ulcerative, due to bacillus dysenteriae, simulating pernicious anaemia (case report), H. M. Young 332.
- Colloidal mastic and colloidal gold tests, comparative results of (abs.) 51.
- Colon, diverticulitis of (abs.) 46.
- " transverse, haemorrhage from a solitary tuberculous ulcer of the, associated with tuberculosis of lungs and complicated by diabetes mellitus (case report) W. H. Eakin 175.
- Colonic stasis, embryology and physiology of, G. E. Armstrong 197.
- Colostrum, value of, to the newborn, G. L. Boyd 724.
- Colours, influence of the various, on the mind and emotions (edit.) 817.
- Constricting bands of the large intestine, late results of surgical treatment of, W. A. Bigelow 83.
- Correspondence: See page xii
- Cranial hyperotoses produced by meningeal endotheliomas (abs.) 753.
- " injuries, management of acute, by the early exact determination of intracranial pressure and its relief by lumbar drainage (abs.) 433.
- Creatinuria in certain diseased conditions, A. T. Cameron and A. Gibson 393.
- Cultures, relation of faulty, to diphtheria mortality (abs.) 678.
- Cystic dilatation of the appendix, acute obstruction due to (case report), E. J. Ferg and W. A. Chestnut 108.

## D

- Deafness, pathology and treatment of chronic catarrhal, P. G. Goldsmith 293.
- Dementia praecox, some considerations bearing on the diagnosis and treatment of (abs.) 357.
- DeQuervain clinic at Berne, Switzerland, F. T. H. Doubler 574.
- Dermatologic diseases, potassium permanganate as a curative agent in (abs.).
- Diabetes insipidus after lumbar puncture (abs.) 751.
- " mellitus, pancreatic extracts in the treatment of, F. G. Banting, C. H. Best, J. B. Collip, W. R. Campbell and A. A. Fletcher 141.
- " methods of study of early, J. J. R. Macleod 4.
- " pancreatic extract and (edit.) 423, 425.
- Diagnosis, some problems in intracranial, A. H. Gordon 68.
- " uncertain, help wanted (case report), J. I. Ferguson 336.
- Diagnostic methods, a sketch of renal (edit.) 39.
- Diarrhoea, statistical study of fermentative, infectious diarrhoea, acute intestinal intoxication and decomposition occurring in the hospital for Sick Children, Toronto, M. A. Cox 554.
- Diet and hyperthyroidism (edit.) 342.
- Digestion, duodenal reflex into the stomach in the course of gastric (abs.) 676.
- " effects of alcohol upon, in the stomach (abs.) 677.
- Diphtheria bacilli, experimental inoculation of human throats with virulent (abs.) 264.
- " mortality, relation of faulty cultures to (abs.) 678.
- " problem of control of (retrosp.) H. B. Cushing 246.
- " treatment and prevention of (edit.) 902.
- Diseases, remarks on deficiency, F. A. Wetmore 873.
- Diuresis, effect of intravenous glucose injections on heart function and (abs.) 438.
- Diverticula, jejunal (abs.) 121.
- Drainage of the lower abdomen (abs.) 589.

- Drugs, action of various, on the gonococcus (abs.) 122.
- " in affections of the urinary tract, value of (edit.) 40.
- " place of, in medical treatment, D. S. Lewis 402.
- Duodenal membranes, some observations on the surgery of, with a call-in-report of result of treatment, R. P. Cromarty 876.
- " reflux into the stomach in the course of gastric digestion (abs.) 676.
- " ulcer, gastrectasis from spastic pyloric stenosis due to, visible peristalsis for two years without special digestive symptoms or discomfort, gastro-enterostomy after two years, complete cure (case report), A. T. Henderson 419.

Dysthyroidism, some phases of, C. P. Howard 606.

## E

- Eczema, infantile, H. Spohn 461.
- " observations on the aetiology of, 12
- " group, roentgen ray treatment of (abs.) 50.
- Editorials: See page xii
- Embolism of the abdominal aorta, C. F. Wyld 647.
- " and, thrombosis, discussion on the postoperative (abs.) 586.
- Emotions, influence of the various colours on the mind and (edit.) 817.
- Empyema and abscess of the lung, pathology and bacteriology of, J. Miller 721.
- " " " " x-ray findings in, L. R. Hess 871.
- " diagnosis of, W. S. Lemon 867.
- Encephalitis, influence of horse serum in treatment of epidemic, C. K. Russel 705.
- " lethargica, the aftermath of (edit.) 426.
- " haemorrhagica, tuberculous meningitis simulating (case report), L. C. Dursthoff 176.
- " note on the incubation period of, developing within five days of exposure (case report), F. Godfrey and N. B. Gwyn 420.
- " in relation to anterior poliomyelitis (abs.) 52.
- " symptomatology of epidemic (abs.) 750.
- Endocarditis, splenic and hepatic enlargement in (abs.) 436.
- " subacute bacterial (abs.) 124.
- " syphilitic aortitis and (case report), J. C. Lindsay 335.
- " various forms of (abs.) 678.
- Endocrine glands, sudden death and the (abs.) 751.
- Endocrines in the psychoneurosis, influence of (abs.) 358.
- Endocrinous disorders, epileptiform manifestations (abs.) 359.
- Endocrinology, glimpses into, W. F. Hamilton 209.
- Endotheliomas, cranial hyperotoses produced by meningeal (abs.) 753.
- Epilepsy, some observations on (abs.) 266.
- " " " the starvation treatment of, A. Goldbloom 539.
- " therapeutic suggestions in the modern treatment of (abs.) 360.
- Epileptiform manifestations in endocrinous disorders (abs.) 359.
- Epithelioma of the penis, (abs.) 123.
- Epiploexy, present status of (abs.) 673.
- Ergot, quinine and pituitrin, A. H. Wright 383.
- Erysipelas, ichthyol in the treatment of (abs.) 189.
- " streptococcal, septicaemia (abs.) 678.

- Erythema, exudative, associated with malignant disease of the uterus (abs.) 360.  
 " nodosum, infectious type of (case report). W. Woolner 738.  
 Ether anaesthesia on afferent paths in the decerebrate animal (abs.) 911.  
 " anaesthetic properties of pure (abs.) 828.  
 " some new anaesthetic, W. Webster 15.  
 Evolution of surgery as I have seen it in my own practice, A. Groves 527.  
 Exanthem subitum (abs.) 125, A. Goldbloom 467.  
 Exercise after operations, value of freedom and (abs.) 261.  
 Extremities, inequality of the lower, following fracture of the shaft of the femur in children (abs.) 49.  
 " pain in threatened and real gangrene of the, its relief (abs.) 587.  
 Eye conditions in pregnancy, C. Graef 481.

## F

- Favus, report of seventeen cases, H. A. Dixon and A. H. Rolph 235.  
 Fear, a harmful emotion, how may we eliminate it from the surgical patient's mind, D. Guthrie 559.  
 Femur, abduction treatment in fracture of the neck of the (abs.) 671.  
 Fever, eruptive, of unusual characteristics in infancy and early childhood (abs.) 190.  
 Fevers, marrow pains in malaria and in certain other acute J. Tait 134.  
 Fibrillation, auricular, observations on action of quinidine with special reference to (abs.) 265.  
 " " quinidine in (abs.) 189.  
 Fibrosis, recognition and treatment of minor degrees of (abs.) 752.  
 Financial considerations of the average doctor, A. T. Lytle 75.  
 Fistulae, operative treatment of vesico-vaginal, A. C. Hendrick 88.  
 Focal infection and selective localization of streptococci in pyelonephritis (abs.) 434.  
 " " studies in (abs.) 910.  
 " " in the tonsils of adults suffering from sub-acute and chronic systemic disease, R. S. Pentecost 886.  
 Foci of infection in cases of pyelonephritis (abs.) 435.  
 Formol-gel reaction in the blood serum of syphilitics, C. A. Watson 469.  
 Fracture of the lower third of tibia, non-union of (abs.) 122.  
 " " neck of the femur, abduction treatment in (abs.) 671.  
 " " shaft of the femur in children, inequality of the lower extremities following (abs.) 49.  
 Fractures, non-union of, in lower third of tibia (abs.) 49.  
 " of transverse processes of the lumbar vertebrae (abs.) 49.  
 Fragilitas ossium (abs.) 121.  
 Functional disease, nature of (abs.) 675.

## G

- Gall bladder disease, surgical therapy and net results in, R. R. Graham 767.  
 " " lessons learned from a study of, F. N. G. Starr 85.  
 " " multiple arthritis treated by medical drainage of the, owing to the discovery of an infected gall bladder in the course of routine examination for an infected focus. Cure almost complete within a few weeks (case report), C. F. Martin 418.  
 " " physiology of the (abs.) 909.

- Gall Bladder problems, W. Boyd 689.  
 " " studies of the function of (abs.) 354.  
 " " surgery in the presence of jaundice, technique of (abs.) 121.  
 " " is the, a useless organ (edit.) 495.  
 Gangrene of the extremities, pain in threatened and real, its relief (abs.) 587.  
 " gas, in civil surgery (abs.) 585.  
 Gas inflation, advantages of, in obstetric and gynaecologic diagnosis with especial reference to its importance in the study of the causes of sterility, R. Peterson 893.  
 Gastrectasis from spastic pyloric stenosis due to duodenal ulcer, visible peristalsis for two years without special digestive symptoms or discomfort, gastroenterostomy after two years, complete cure (case report), A. T. Henderson 419.  
 Gastric and duodenal ulcers, treatment of perforated (abs.) 748.  
 " ulcer, curability of (abs.) 436.  
 " " of syphilitic origin (abs.) 675.  
 Gastritis, phlegmonous, with cirrhosis of liver (case report) J. P. Anderson 492.  
 Gastro-enterostomy resection versus, in the treatment of gastric and duodenal ulcer (abs.) 353.  
 Genitalia, study of 485 cases with acute lesions of the (abs.) 828.  
 Girls, physical education of (edit.) 816.  
 Gland, adrenal, relationship between the, and the thyroid, F. A. C. Scrimger 316.  
 " endocrine, sudden death and the (abs.) 751.  
 " suprarenal, in anaesthesia (abs.) 829.  
 " thyroid, differential diagnosis of diseases of, J. Phillips 318.  
 Glands, primary sarcoma of the mediastinum with haemoptysis and metastases extending into the left lung with involvement of right supraclavicular (case report), K. Gordon 897.  
 Glucose injections, effect of intravenous, on heart function and diuresis (abs.) 438.  
 Glycosuria, renal (abs.) 437.  
 Goitre some aspects of exophthalmic (abs.) 262.  
 " exophthalmic, J. K. McGregor 860.  
 " problem from the patient's standpoint, F. N. G. Starr 858.  
 " simple in man, its prevention and treatment (edit.) 114.  
 " some thoughts on, R. E. McKechnie 854.  
 " toxic, E. M. Eberts 219.  
 Gonococcus, action of various drugs on (abs.) 122.  
 Gonorrhoeal infection of nervous system (abs.) 263.

## H

- Haematogenous osteomyelitis, acute (abs.) 587.  
 Haematoma and abscess of the anterior abdominal wall (abs.) 590.  
 Haematuria, essential (abs.) 355.  
 Haemorrhage, diagnosis and treatment of intracranial, in the newborn (abs.).  
 " from a solitary tuberculous ulcer of the transverse colon associated with tuberculosis of the lungs and complicated by diabetes mellitus (case report), W. H. Eakin 175.  
 " uterine, from the viewpoint of the general practitioner, F. A. L. Lockhart 240.  
 Haemorrhagic disease of the newborn (retrosp.) L. M. Lindsay 740.  
 Haemorrhoids, treatment of (abs.) 672.  
 Hands and feet, further studies in ringworm of (abs.) 189.  
 Head and neck, plastic surgery of the, F. Risdon 797.  
 Heart block and auricular fibrillation, C. F. Moffatt 159.  
 " effect of syphilitic infection on (abs.) 262.

Heart, function and diuresis, effect of intravenous glucose injections on (abs.) 438.  
 " therapy, calcium in (abs.) 437.  
 " treatment of the syphilitic liver and (abs.) 825.  
 Heliotherapy in surgical tuberculosis, R. I. Harris 799.  
 Hemihypertrophy and mental defect (abs.) 51.  
 Heredity and environment, relations of constitution and condition to predisposition to disease, L. F. Barker 601.  
 Hernia, resection of the small intestine in a case of strangulated inguinal (abs.) 589.  
 Hepatic and splenic enlargement in endocarditis (abs.) 436.  
 Hibernation, bodily temperature and (edit.) 114.  
 Hip-joint, caries of the (abs.) 185.  
 " disease, observations upon the treatment of (abs.) 185.  
 Hodgkin's disease, relation of, to sarcoma (abs.) 189.  
 Horse serum, influence of, in treatment of epidemic encephalitis, C. K. Russel 705.  
 Hospital standardization, report of the conference upon (edit.) 116.  
 " " some hospitalization problems, M. T. MacEachern 520.  
 Hospitals, smaller, and their clinical possibilities (edit.) 181.  
 Hour-glass stomach, A. Moir 20.  
 Hydrochloric acid in cases of carcinoma of the stomach, prevalence of free (abs.) 264.  
 Hydronephrosis, intermittent, due to kinking of right ureter by an accessory renal artery (case report), W. W. Beatty 333.  
 Hyperglycaemia curve, practical significance of the alimentary (abs.) 752.  
 Hyperotoses, cranial, produced by meningeal endothelioses (abs.) 753.  
 Hyperthyroidism, diet and (edit.) 342.  
 Hypertrophy, massive of the breast (abs.) 121.  
 Hysterical nature of severe vomiting in pregnancy (abs.) 677.

I

Ichthyol in the treatment of erysipelas (abs.) 189.  
 Industrial efficiency, alcohol and (edit.) 903.  
 " medicine (edit.) 743.  
 Industry, physician in (edit.) 900.  
 Infancy and early childhood, eruptive fever of unusual characteristics in 190.  
 " etiology of some forms of marasmus in, its treatment by lactic acid whole milk (retros.) 811.  
 " intracardiac injection of adrenalin for syncope after administration of chloroform in (abs.) 674.  
 Infant, bromide, eruption in a nursing, F. H. Boone 570.  
 Infantile eczema, H. Spohn 461.  
 " " observations on the aetiology of, H. P. Wright 12.  
 Infants, effects of ultra violet rays on the calcium and inorganic phosphate content of the blood serum of rachitic, F. F. Tisdall 536.  
 " merits of intraperitoneal injections in, T. D. MacGregor 787.  
 Infection, focal, in certain skin diseases (abs.) 52.  
 Infections, alimentary, in chronic arthritis (abs.) 357.  
 Inoculation, experimental, of human throats with virulent diphtheria bacilli (abs.) 264.  
 Insulin and the steps taken to secure an effective preparation (edit.) 899.  
 Intestinal obstruction, H. W. Riggs 390.  
 Intestine, large, pernicious anaemia with special reference to the spleen and (abs.) 184.  
 " terminal ileum late results of surgical treatment of constricting bands of the large, W. A. Bigelow 83.

Intestine, small, rejection of the, in a case of strangulated inguinal hernia (abs.) 589.  
 " " remarkable case of post-operative intussusception of the, with spontaneous discharge of intussusceptum twenty-seven inches long, immediate relief (case report), C. F. Martin 418.  
 Intracardiac injections (abs.) 748.  
 " " of adrenalin for syncope after administration of chloroform in infancy (abs.) 674.  
 Intracranial diagnosis, some problems in, A. H. Gordon 68.  
 " haemorrhage, diagnosis and treatment of, in the newborn (abs.) 912.  
 Intraperitoneal injections in infants, T. D. MacGregor 787.  
 Intraspinous treatment of neuro-syphilis (abs.) 188.
